This week's topic: friendship

I don't make friends easily because I'm quite shy and I don't talk to people first. I'm a loner and I prefer one close friend to lots of friends. My best friend is Romain. He is funny and we both like computers and video games. I can rely on him when I am in trouble at school. I don't invite him regularly but he is a good friend.

I think I'm not very shy. I make friends easily and I've got a lot of friends, but I hate people who are too aggressive or big-headed. I've got six very good friends. We've been friends since primary school. They are very funny, we have the same tastes and we are the same age too! But there is someone I like a lot, it's Arthur. He is very nice and he understands me.

I am a little shy but I make friends easily so I've got a lot of friends. There is someone I like a lot, her name is Marine. She is very considerate and she can keep a secret (I hate people who can't keep a secret!). I like her because she is nice, and not big-headed! We have the same tastes and we both like going to the cinema.

She is really my best friend.

I am not a mixer (I think!) because I can't stand having a lot of friends. My best friend's name is Antoine. He is taller than me (not too difficult!). We both enjoy playing computer games and tennis. We were not born on the same day (he is older than me). We are both good at the same same subjects and I have known him for eight years! I can rely on him and he can rely on me. I invite him twice a week at home or we play tennis together. He was born on the eleventh of February 1996. Last year, we were in the same class.

Hi! I'm a mixer, I make friends easily so I have got a lot of friends.

I love inviting Agathe at home. She is my best friend. I like going to the cinema or going shopping with her. She is very nice and we can talk about everything. I can rely on her. Unfortunately, she is not in my class!

In my class, I've got a very good friend, Lucile. She is really funny and we laugh a lot together.

I love my friends!

I'm a mixer and I like going out with a friend once or twice a month. I've got many friends because I make friends easily but I prefer Mathilde. She is my best friend. I'm taller than she is. We often have the same tastes, but we are very different: we like going to the cinema very much, we are crazy about sunbathing and swimming but I'm a little interested in politics, Mathilde can't stand that. I'm extremely talkative, but she is not very talkative because she is wiser than me in class. But I'm not as shy as she is! We have known each other for six years and I know I can rely on Mathilde.
